

AZHAR RIZQULLAH

Business Analyst | Requirements Analysis & Digital Product Coordination

Yogyakarta, Indonesia · +62 898-1335-730 · azhar.rizqullah135@gmail.com · zharq.my.id · linkedin.com/in/azhar-rizqullah-535447309

PROFESSIONAL SUMMARY

Fresh Informatics graduate (Cumlaude, GPA 3.78) pursuing a career as a Business Analyst, with hands-on experience in requirements gathering, stakeholder coordination, and translating business needs into actionable specifications for a live platform serving 1,000+ users. Backed by direct technical literacy (HTML, CSS, JavaScript, React) that enables credible, detail level communication with developers and designers. Founder of an independently-operated digital product (Kabar Baik Studio), demonstrating end-to-end ownership from requirements through delivery. Open to remote, hybrid, or onsite entry-level Business Analyst roles.

CORE COMPETENCIES

Business Analysis & Requirements: Requirements Gathering & Analysis, User Story & Acceptance Criteria Writing, Business Process & Workflow Mapping, Stakeholder Coordination, Sprint Planning & Milestone Tracking, Risk Identification

Product & UX Collaboration: User Research, Usability Testing, User Flows & Wireframing, Design Systems (Figma), Design-to-Development Handoff

Technical Literacy: HTML, CSS, JavaScript, React, Tailwind CSS enables direct, credible communication with dev teams

Tools: Figma, Miro, Draw.io, Notion, Trello, Taiga, Git/GitHub, Canva

Marketing & Communication: Digital Marketing, Content Strategy, Social Media Management, Cross-Functional Communication

Languages: Bahasa Indonesia (Native), English (Professional Working Proficiency), Bahasa Melayu (Professional Working Proficiency)

PROFESSIONAL EXPERIENCE

Project & Product Support Intern — Scholarstoday.id

Sep – Nov 2025

Remote · Agile team of 5 · Live educational scholarship platform serving 1,000+ users

- Participated in sprint planning, helping define task priorities, estimate timelines, and track milestone completion across development cycles.
- Bridged design and development teams by translating Figma prototypes into implementation-ready specifications, reducing rework.
- Facilitated user research and usability testing with 50+ end users, synthesizing findings into product improvements that lifted navigation efficiency by 25% and engagement by 20%.
- Produced project documentation feature specs, meeting notes, and sprint reports to keep stakeholders aligned.
- Contributed hands-on to shipping scholar profiles, event dashboards, and donation modules using React and Tailwind CSS, on schedule with zero downtime deployment.

Digital Marketing Division Lead — PT. Babylahap Indonesia

Jun – Sep 2024

Remote · Virtual Internship, Marketing Communication · 3-month program, Batch 2

- Led planning and execution of digital marketing activities within the Marketing Communication division during a 3 month virtual internship.
- Coordinated content strategy and team output, strengthening cross-functional communication and campaign execution skills.
- Applied marketing communication practices later reused to build and run the social media presence of Kabar Baik Studio.

KEY PROJECTS

Kabar Baik Studio — Digital Wedding Invitation Platform (Founder & Developer)

2024 – Present

Live: kabarbaik.web.id

- Founded and independently operate a 100-template digital wedding invitation platform (Laravel + React/Inertia.js) with integrated local payment methods (BSI, Seabank, OVO/DANA/GoPay), owning the full product lifecycle from requirements through deployment and business operations.
- Diagnosed a recurring music playback failure on Mi Browser devices and redesigned the platform's audio delivery after benchmarking a competitor's approach, cutting related customer support complaints by an estimated 30% within the first month.
- Delivered incremental features (Music Library, Couple Portal) end-to-end from requirement definition through production deployment on constrained shared-hosting infrastructure with no SSH access.
- Own brand identity and content strategy for the platform, maintaining consistent visual identity and messaging across marketing touchpoints.

Scholarstoday — Educational Platform for Scholars

2025

Live: scholarstoday.id | Figma: [ungu.in/schintern](https://www.figma.com/file/ungu.in/schintern) | GitHub: [ungu.in/repofe_sch](https://github.com/ungu.in/repofe_sch)

- Managed scope across 3 feature modules (scholar profiles, event dashboards, donation module) within a 3-month sprint cycle, coordinating design-to-development handoff across a 5-person team, delivering all modules on schedule with zero-downtime deployment to a platform now serving 1,000+ users.

FaceDx — Mobile App for Facial Analysis & Skincare

2025

Live: [Face.dx](https://face.dx) | Figma: [s.id/UNzBO](https://www.figma.com/file/s.id/UNzBO) | GitHub: [s.id/wi6XS](https://github.com/s.id/wi6XS)

- Coordinated planning and defined user stories/acceptance criteria for an AI-integrated skincare analysis app, validating cross-device UI/UX consistency through testing on 99+ devices prior to release, resolving layout issues pre-launch and supporting a stable release across the full device range tested.

Dormitory Profile Website, Sambas Regency Students

2025

Live: amks.y | Figma: [s.id/My2Ls](https://www.figma.com/file/s.id/My2Ls) | GitHub: [amksy](https://github.com/amksy)

- Owned end-to-end delivery from requirements gathering through launch for a community profile website serving 100+ students, translating stakeholder needs into a functional, launched product adopted as the dormitory's primary information channel.

Edufarm — Agriculture Learning Platform

2024

Figma: [edufarmweb](https://www.figma.com/file/edufarmweb) | GitHub: [feedufarm](https://github.com/feedufarm)

- Planned project milestones and led usability testing that improved task completion rate by 40%, directly informing interface redesign priorities.

EDUCATION

Universitas Amikom Yogyakarta

Graduated 2026

Bachelor of Informatics, Faculty of Computer Science — GPA 3.78 (Cumlaude)

- Relevant coursework: Project Management, Software Engineering, Requirements Analysis, System Analysis and Design

Studi Independen — Infinite Learning

2024

UI/UX Web Development — included Agile methodology, user research, product design lifecycle, and sprint-based project delivery

ORGANIZATIONAL EXPERIENCE

Creative Division Coordinator — AMIKOM Table Tennis Association

2023 – 2024

- Led and coordinated a creative team, managing content planning, task delegation, and delivery timelines for social media campaigns; grew engagement by 30%.

Secretary — Sambas Regency Students Dormitory

2023 – 2024

- Managed administrative operations, documentation, and stakeholder communications for a 20+ member community; produced meeting minutes and tracked follow-through on action items.
